SDW
TECHNICAL CONSULTING
PTY LTD

Thermoplastic engineered HDPE piping solutions designed for the demanding conditions of mining and industrial environments. Specialising in the supply, fabrication, and installation of high-performance thermoplastic systems from pipework and fittings to custom manifolds and fastening systems, SDW Consulting combines technical expertise with quality materials to optimise flow performance, reduce maintenance and support reliable plant operations across Sub-Saharan Africa.

Product Range:

- HDPE Pipe: 50mm – 630mm
- Stubs: 50mm – 630mm
- Backing Rings: 50mm – 630mm
- Reducers
- Manifolds
- Fasteners

Engineered Thermoplastic Solutions for Mining & Industry
